The BPTI as a world reference

Reducing the stock of patent applications pending examination by 80% by the end of 2021, transforming the BPTO into a world reference, promoting digital access to all services, and increasing the technical training of professionals are some of the goals of the BPTO – Brazilian Patent and Trademark Office for the next three years.

Humberto Martins, president of the Superior Court of Appeals (STJ), in his presentation during the opening ceremony of ABPI's 40th International Congress.

The Judiciary debates Intellectual Property

The Judiciary must evolve to provide viable and appropriate answers to questions involving technology and intellectual property, said Minister Humberto Martins, president of the Superior Court of Appeals (STJ), in his presentation during the opening ceremony of ABPI's 40th International Congress.

The modernization of ABPI and the first virtual congress

In his speech, Pimenta highlighted the association's modernization process, accelerated due to social isolation.

Spending is forbidden in economic recovery

According to Loyo, the fiscal adjustment will be very gradual and conditioned to the growth of the GDP (Gross Domestic Product), an issue that he considers key for the maintenance of the economic recovery process.
